PROFESSIONAL SUMMARY

Virtual Marketing Assistant with expertise in email automation, landing page development, and social media management. Skilled in combining marketing strategy and technical execution to generate leads, improve conversions, and streamline business operations.

EXPERIENCE

Marketing Specialist — Nexgen Innovations Ltd.

April 2026 – Present

- Manage and support Microsoft Ads campaigns, including keyword research, campaign setup, ad copy and asset development, targeting, and ongoing optimization.
- Conduct competitor and keyword research to identify advertising opportunities and support campaign strategy.
- Build responsive landing pages and marketing websites using HTML/CSS and modern web development platforms.
- Develop and optimize landing page structures with a focus on user experience, CTA placement, and conversion flow.
- Manage website deployment, domains, DNS, hosting, and performance-related tasks using platforms such as Cloudflare and SiteGround.
- Use Replit and other development tools to rapidly build, test, and refine websites and marketing assets.
- Support end-to-end digital marketing operations, connecting paid advertising campaigns with landing pages and conversion-focused website experiences.
- Implement website updates, technical improvements, and marketing assets based on campaign requirements and client objectives.

Impact:

Managed the technical and marketing execution behind digital campaigns, combining Microsoft Ads, keyword research, landing page development, website optimization, and deployment to support lead generation and conversion-focused marketing.

Administrative Marketing Assistant — Expansion Support Services

February 2026 – May 2026

- Conduct competitor market analysis (CMA) by evaluating local businesses' online presence, SEO performance, and paid advertising strategies to identify growth opportunities.
 - Perform website audits focused on user experience, mobile responsiveness, call-to-action placement, and overall conversion optimization.
 - Research and analyze high-performing keywords, both organic and paid, to support SEO strategies and improve search visibility.
 - Assist in developing website improvement recommendations based on industry standards and competitor benchmarks.
 - Create structured reports summarizing findings, insights, and actionable suggestions for business growth.
 - Continuously learn and apply web development fundamentals (HTML/CSS) and SEO best practices to enhance analysis accuracy and recommendations.
- Key Impact

Impact:

Delivered actionable insights through competitor analysis and website audits, helping identify opportunities to improve search rankings, user engagement, and lead conversion.

Virtual Marketing Associate — Vanguard Men’s Health

November 2025 – February 2026

- Managed content scheduling and publishing across social media platforms to maintain consistent client activity.
- Assisted in building and updating client websites and landing pages using HTML/CSS.
- Created marketing graphics, promotional materials, and short-form content using Canva and CapCut.
- Developed and maintained email marketing campaigns and automation workflows to support client communication and lead nurturing.
- Assisted with organizing digital content, marketing assets, and campaign materials.
- Supported day-to-day marketing tasks and website updates based on client requirements.

Impact:

Supported consistent client marketing operations through email automation, website development assistance, graphic design, and content scheduling, helping streamline recurring marketing tasks and maintain an organized digital presence.

Customer Service and Sales Representative — Alorica

July 2025 – November 2025

- Processed customer orders accurately and efficiently while maintaining service quality standards.
- Upsold pop-up and add-on items during customer interactions to support company sales targets.
- Consistently maintained a daily KPI of at least 4 sales per shift.
- Balanced fast, accurate order processing with active sales conversations to meet both service and revenue goals.

Impact:

Maintained strong sales performance while delivering accurate and efficient customer service in a fast-paced international account.

IT Staff – Crestec Philippines Inc.

January 2025 – May 2025

- Provided technical support for computers, printers, and network connectivity
- Installed and configured software (Microsoft Office, Outlook, internal systems)
- Set up workstations, devices, and cabling for employees
- Managed inventory and tracked IT equipment

Impact:

Maintained smooth technical operations and minimized downtime across departments.

Customer Service Representative – Alorica

October 2024 – January 2025

- Handled customer concerns and order transactions for international accounts
- Delivered clear communication and problem resolution in a fast-paced environment.
- Assisted customers with order inquiries and transaction-related concerns.
- Verified customer and order information to ensure accurate processing.

Impact:

Maintained customer satisfaction and supported sales during peak season operations.

IT Specialist – DysrupIT (Contract)

March 2024 – July 2024

- Automated employee timesheets for payroll using Python (Pandas)
- Provided onboarding support and device setup for new hires
- Assisted in troubleshooting and IT support tasks
- Managed device inventory and distribution

Impact:

Reduced manual processing time and improved payroll efficiency through automation.
