PROFESSIONAL SUMMARY

Virtual Marketing Assistant with expertise in email automation, landing page development, and social media management. Skilled in combining marketing strategy and technical execution to generate leads, improve conversions, and streamline business operations.

EXPERIENCE

Virtual Marketing Associate (Project-Based)

November 2025 – February 2026

- Managed social media platforms including content scheduling, CTA creation, and engagement tracking
- Built landing pages for lead generation and appointment booking using HTML/CSS
- Designed marketing assets (lead magnets, graphics, short-form videos) using Canva & CapCut
- Developed and implemented email marketing campaigns and automation workflows
- Organized inbox systems using tagging, categorization, and automated responses
- Conducted basic SEO optimization and competitor research using tools like SEOquake and SpyFu
- Tracked performance metrics to improve content reach and campaign effectiveness

Impact:
Improved content consistency, reduced manual workload through automation, and supported lead nurturing systems for better conversion flow.

IT Staff – Crestec Philippines Inc.

January 2025 – May 2025

- Provided technical support for computers, printers, and network connectivity
- Installed and configured software (Microsoft Office, Outlook, internal systems)
- Set up workstations, devices, and cabling for employees
- Managed inventory and tracked IT equipment

Impact:
Maintained smooth technical operations and minimized downtime across departments.

Customer Service Representative – Alorica

October 2024 – January 2025

- Handled customer concerns and order transactions for international accounts
- Delivered clear communication and problem resolution in a fast-paced environment

Impact:
Maintained customer satisfaction and supported sales during peak season operations.

IT Specialist – DysrupIT (Contract)

March 2024 – July 2024

- Automated employee timesheets for payroll using Python (Pandas)
- Provided onboarding support and device setup for new hires
- Assisted in troubleshooting and IT support tasks
- Managed device inventory and distribution

Impact:
Reduced manual processing time and improved payroll efficiency through automation.
